

TRADITIONAL FACTORS

RULING PLANET
Mercury is the ruling planet because Gemini is the Ascendant & Mercury rules Gemini

RULER'S HOUSE
The ruler's house is the first house because Mercury was in the first house for this time and location

+
8 planets are in positive signs: Mercury & Mars in Gemini; the Moon and Venus in Leo; Jupiter, Saturn and Pluto in Libra; Neptune in Sagittarius.

ANGULAR
Mercury and Mars are also angular because they are within 8° of the Ascendant. We can also add Neptune, which is setting, i.e. within 8° of the Descendant (the angle directly opposite the Ascendant, or in opposition to the Ascendant)

MUTUAL RECEPTION
The Sun and Moon are placed in each other's signs. This is known as "mutual reception", i.e. the Sun rules Leo; the Moon rules Cancer.

RISING PLANETS
Both Mercury & Mars are rising planets because both are in conjunction with the Ascendant, i.e. within 8° of the Ascendant: ASC = 21°: Mars = 20° in the 12th house; Mercury = 26° in the 1st house. You may consider a planet to be rising if it is within 15° of an angle, but its effect will be less powerful than a conjunction.
